

AQE Single Port Injector

Power over Ethernet

Gigabit data and power all-in-one.

brings power and data together with our latest innovation. The AQE15 and AQE30 are single port Power over Ethernet (PoE) MidSpan Injectors designed for access control and security applications. These modules enable the powering of PoE devices from a non-PoE source. AQE Series Injectors power PoE cameras, access control door controllers and other PoE equipment.

Features

Standard Features

- Allows powering of PoE devices from a non-PoE source
- Operates from low voltage 24 VAC or 24 VDC input
- Reset feature allows PoE shutdown
- Visual diagnostics via on board LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Certifications

- UL 294B Listed
- UL/CUL 60950-1
- 15W IEEE 802.3af
- 30W IEEE 802.3at
- CSA C22.2 No.205-M1983, Signal Equipment
- RoHS Compliant

Electrical

- 24 VAC or 24 VDC \pm 15% input
- 1.4 or 2.6 A input current
- 50 VDC output
- 300 or 600 mA output current
- 5 to 24 VDC, 10 mA max shutdown terminals
- 100m (328 feet) max data cable length
- 10/100/1000 data rate Base-T compliant

Environmental

- Operating Temperature: 32° to 120° F [0° to 49° C]

Product Number	AQE15	AQE30
Input Amps	1.4	2.6
Input Voltage	24 VAC or VDC	24 VAC or VDC
Output Current	300 mA	600 mA
Data Rate – BASE T	10/100	10/100/1000
UL 294B	Listed	Listed
UL/CUL 60950-1	Listed	Listed
IEEE 802.3at	Listed	Listed

How to Order

MODEL SERIES	POWER	FUNCTION	MOUNTING STYLE
AQE	15		
AQE PoE	15 1.4 A, Dual Voltage	(blank) PoE Injector	(blank) Single Port
	30 2.6 A, Dual Voltage		

Items can only be ordered as listed above
