

- **The Design: SFIC Quick-Swap & 180° Reset**

Replace SFIC cores instantly. Reset codes in seconds: just press and rotate the tumbler **180°** with a screwdriver. No complex disassembly required.

- **The Advantage: High-Security 11-Key Logic**

Features **11 active buttons** (12 total) for maximum combinations. Purely mechanical, battery-free, and **100% drill-free** retrofit for standard Adams Rite prep.

- **The Market: Commercial & Institutional Projects**

Ideal for **Shop Owners, Schools, and Property Management**. Seamlessly integrates with existing Master Key systems, providing a **fast-install** keyless solution for locksmiths and contractors.

Reversible for Left-and Right-handed doors—just rotate the tailpiece 90 degree

Compatible-with the Adams Rite MS1850S

- 1: Purely Combination Keyless;
- 2: Replace the Adams Rite Mortise;
- 3: DIY installation by DRILL free;
- 4: Key Override with SFIC core.

Code Changing Steps
