- **The Feature:** This is our most specialized "Back Door" companion. It allows for locking the door with NO key and NO code.
- **Why It Sells:** It gives the owner Absolute Access Control. Staff can secure the premises instantly with a simple turn—no need to share codes or distribute keys to employees for the back/side doors.
- **The Value:** It simplifies the closing routine and ensures that while anyone can lock up, only the authorized manager/owner can enter. It's the ultimate "Manager's Lock."

Left-Handed or Right-Handed
