

MAG

<https://www.locinoxusa.com/gate-hardware/locks/electromagnetic-locks/d00000024>

The MAG is a bolt-on electromagnetic lock for powered access control. Available in 2 versions; the MAG3000 has up to 660 lbs. and the MAG6000 which has up to 1320 lbs. of pull force resistance. The aluminum powder coated housing with integrated design handles gives your access control gate that extra elegant touch. Stop losing precious time with welding boxes; drilling just 7 holes does the job – our patented Quick-Fix bolts help you install quickly and easily. A two-layer, protective coating guarantees that our electromagnetic locks are ready for years of worry-free use in the outside elements.

TECHNICAL SPECIFICATIONS

Left-Right Adjustability	Yes
Installation Method	Quick-Fix
Profile Type	Flat
	Square
Operating Voltage	12V DC / 24V DC
Operating Current	MAG3000: 500 mA (12 V) or 250 mA (24 V) MAG6000: 460 mA (12 V) or 230 mA (24 V)
IP Rating	68
Length Provided Cable	43-5/16 in
Materials Main Part(s)	Powder Coated Aluminium Special Two Layer Protective Coating
Norms	ISO 9227
Hours of Salt Spray Testing	500
Test Frequency	500000
Years of Warranty	2
