Experience a safer
and more open world

SAFE BOLT™

Code-Compliant Barricade Lock

Secure Students At The Press Of A **Button**

Retrofit existing cylindrical lever locks

Meets Department of Homeland Security's
#1 recommendation to quickly lockdown
classroom doors without a key!

Schools ▪ Colleges and Universities ▪ Shelter-In-Place Rooms

SAFEBOLT™

Code-Compliant Barricade Lock

ASSA ABLOY

SAFEBOLT™

SAFEBOLT™ is the fastest way to barricade a classroom door while maintaining 100% code compliance. Anyone in the room can press the red button and project a 1" locking bolt to secure the room. SAFEBOLT™ retrofits to existing cylindrical lever locks, making it affordable and easy-to-install.

Keyless instant lockdown

- No scrambling to find the classroom key, simply press the red button

Retrofits to existing cylindrical lever locks

- Cost efficient: Keep existing cylindrical door locks and keying systems by mounting the SAFEBOLT™ over the existing lock with the collar and adapter ring

Superior intruder protection

- Full 1 inch throw stainless steel locking bolt and latch

High visibility indicator

- The visual indicator notifies occupants that the door is bolted

Free egress

- A single motion retracts the bolt and latch from the inside at all times
- ADA compliant, meets all applicable life-safety codes

Keyed entry

- Staff and first responders can always enter by key
- No one is ever locked in

Easy to install

- Inswing and outswing models available
- Thru-bolted assembly
- Accepts any standard rim cylinder (ordered separately)
- Metal installation template ensures smooth and speedy installation

Certifications

- SAFEBOLT™ is approved to be used as an auxiliary component in Fire Door Assemblies with up to 3-hour rating

Securitech is America's go-to manufacturer of innovative, code-compliant locking solutions. As a continuous-improvement company, Securitech is committed to developing industry-leading products to solve today's needs.

SAFEBOLT™ secures tens of thousands of students each day.

Interior View

Exterior View

How does it work?

A single press of the red button projects the locking bolt & instantly locks down the classroom in a code-compliant manner. The classroom lock functions in its normal manner at all times, with exiting always possible in a single motion, even when the SAFEBOLT™ locking bolt is engaged.

Entry is always possible by key, meeting code requirements for keyed entry to any locked classroom.

SAFEBOLT™ is the code-compliant classroom barricade lock.

SAFEBOLT™ lets teachers focus on students

One simple push of the red button assures the teacher that their door is properly secured. This one-step approach allows the teacher to instantly focus on sheltering in place or evacuating.

Precious seconds and minutes are saved with this system.

SAFEBOLT™ wins Security Industry Association (SIA) Award

At the 2019 ISC WEST convention, SAFEBOLT™ was selected as the outstanding New Product in the Lock Systems & Storage Containers category.
