

SADDLE THRESHOLD

INSTALLATION INSTRUCTIONS

Measure width at the bottom of the frame and cut the threshold to exact full width of the opening.

If desired, trim and notch the threshold ends to accommodate the side jamb stops.

Mark and drill pilot holes through the pre-drilled holes in the threshold and fasten with screws provided.

Caulk both ends and along the sides of the threshold for moisture control.

ADA Compliant

Meets UL10B, UL10C and UBC 7-2 (1997) Category J
